Subject: Upcoming System Development Fee Schedule – Planning Ahead for 2026 and Beyond

Development Partners,

As part of Aqua Water Supply Corporation’s ongoing commitment to transparency and collaboration, we are providing this notice to help you plan for upcoming **System Development Fee (SDF)** adjustments over the next several years.

Each year, Aqua reviews its System Development Fee to ensure it accurately reflects the cost of expanding and maintaining our water system infrastructure. These adjustments are necessary to keep pace with material, construction, and capacity expansion costs while continuing to provide reliable service to all customers.

System Development Fee Schedule:

Year	2025	2026	2027	2028	2029	2030
Fee per LUE	\$ 7,300	\$ 8,400	\$ 9,700	\$ 11,200	\$ 12,900	\$ 14,900
Effective Date	Current	6/1/2026	6/1/2027	6/1/2028	6/1/2029	6/1/2030

Note: “LUE” refers to Living Unit Equivalent. Fees are assessed at the time each phase or lot connects to Aqua’s system.

By sharing this schedule in advance, we aim to give our development partners ample time to plan project budgets and phase timing accordingly. The fee schedule will also be posted on our website at www.aquawsc.com/development, along with additional details about Aqua’s development process and application requirements.

If you have any questions or would like to discuss how these updates may affect your projects, please contact our Development Services team at development@aquawsc.com.

We appreciate your partnership and look forward to working with you as we continue to expand and improve water service across our community.

Sincerely,

Dacy Cameron, P.E.
General Manager
Aqua Water Supply Corporation
